***My dear friends,***

On this First Day of 2025, I, with a deep sense of responsibility, humility and honour, wish to share my thoughts with you .

As a Defence PSU, India Optel Limited has marked its presence in the industry with a commitment towards national security. In order to achieve growth, we must meet the expectations of our customers in terms of Quality, Quantity, Delivery and Innovation. We have to play the requisite role in the defence eco-system as a Lead integrator and Solution provider to make India Self-Reliant in tune with the Government's policy of "Make in India" and "Atamanirbharta". With a clear focus on design and development, we have to further shape IOL's destiny.

In fact, IOL has already taken the first step in this direction. We surpassed all previous records to register a growth of over 28 % in the F.Y. -2023-24. We are accelerating towards a turnover of Rs 1600 Crores in F.Y. 2024-25. IOL's order book as on 1<sup>st</sup> April 2024 was Rs. 6811 Crores and in financial year 2024-25, till date ordered valuing Rs. 1544 Crores have been received. Thereby increasing the order book to Rs.7510 Crores till now. Our futuristic projects include ATT & DBC, 3<sup>rd</sup> Generation Sighting System, GMS for MBT Arjun tank Mk-1A and Inertial Navigation System. IOL has also successfully delivered full quantity of fusion technology based DNS for BMP-II.

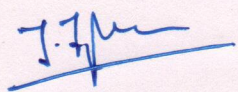

Supply of Telescopic Sight for Assault Rifle is expected to commence from January 2025. In line with government's policy for *Atmanirbharta*, IOL has successfully indigenized Electro Block for T-90 Tank, Muzzle Bore Sight UPV-125 for tank T-90, Cable Harness for TIFCS for T-72 and Spool A&B for Torpedo for Indian Navy.

The pace and momentum of growth can be sustained by creating a culture of mutual trust and accountability. My dear friends, our greatest strength is our human resource. Therefore, welfare of each of you is paramount and we strive for the best practices of HRM. I envisage a climate conducive for "Inclusive Production" where not only genuine aspirations and welfare of our people will be taken care of but concerns will also be suitably addressed. IOL is committed to take appropriate initiatives and steps to recognize and reward those who can convert possibilities into realities.

Looking forward to a fruitful journey with all of you in the year 2025. May we all work together with great zeal and enthusiasm to take IOL to greater and newer heights.

Jai Hind.

  
( Tushar Tripathi )
